

CASE STUDY

Foster-Glocester Regional School District

Chepachet, RI

ESPC Third Party Consultant

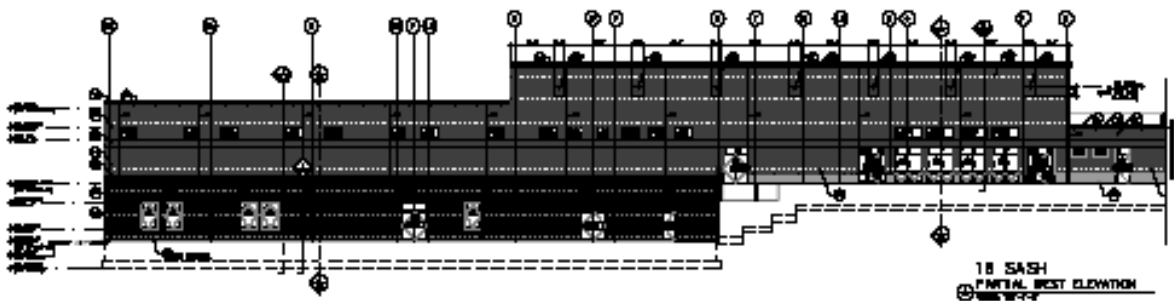

The Foster- Glocester School District pursued a totally unique method of deriving as much value from a school renovation and expansion project by combining \$28 million of New Construction and \$10 million worth of ESPC to include cutting edge energy saving technologies. The new High School will be an Alternative Energy themed school.

Projects: Energy Savings Performance Contract – Third Party Consulting

Scope:

- Cash strapped district with older facilities.
- IAQ and fire code violations
- Building new Middle School, expanding and renovating *Alternative Energy* High School.
- Over budget, using ESPC to fund ECMs
- Bio-mass fired heating systems, PV, wind power, high efficiency HVAC, controls, daylighting
- **CEI managing Performance Contract, \$10.5 million project**
